Download files quickly and easily

Folx is the best download assistant for Mac.

Folx is a **free download manager for Mac OS X**. Its friendly interface will help you take the most of your downloads. It's not overloaded with tons of unnecessary features and is extremely easy to use. All you have to do to download files is click the link in your web browser and Folx will catch it.

By the way, Folx is a 2-in-1 app: you don't need one program for common downloads and other one to download torrents. Folx can handle both as a piece of cake.

Folx Download Manager

With Folx Downloader you can:

Download with Folx instead of your web browser:

Folx can split your downloads in multiple threads, thus it is much faster. You also have an option to adjust the download and upload speed in Folx and prioritize the most important downloads by just dragging them to the top of the queue. Auto-resuming of your downloads is available, which is rather useful if you went offline, the website was down, etc.
