Isnt this the same thing like "Zombie Cycle" ? If ye, go look that review. Frenetic action game

. This game appears to be attempting to be relaxing; yet it does not succeed in this, in my opinion. There is considerable focus on scoring, and as the seasons progress your score becomes much more dependant on luck than skill. It gets increasingly frustrating, as you are denied the three-star score for either failing to use one of each colour and shape to fill the grid, or for getting stuck at any point. This would be tolerable if it were actually always possible to 'win'. It is not - you can fill the grid without ever being offered a shape V colour that you need. The massive ramp up in probability of failure in Winter is especially frustrating.

This game feels at odds with itself. If it wishes to be relaxing, it should drop the score and the achievements (and put something in their place, as the game feels a little empty as it is). If it wants to be a puzzle game, it should eliminate the luck component.. Extremely fun with friends to goof off and have a good time. Horrible gameplay and controls compared to the first Commandos. Will probably never open this game again.. Absolutely fantastic game with lots of soul and oozes quality. The devs are very hard at work fixing issues to help the game run better for people. They are good people, and if you want to support a VERY good horror game, give this one a shot. It's probably my favorite horror game this year, and reminds me of what I loved about Silent Hill and the original Resident Evil games. It's very story heavy, but the writing is very very good. Good work BaroqueDecay.

Wanted to buy Vegas Pro originally, but gave this software a chance since it's cheaper. Surprisingly, this software is more than enough for editing my videos and pretty easy to master too! I did not encounter any crash or lags while using this for 2 hours straight so I say give this software a go, if you don't like it just refund it.. My very first Choice of Game" ever, and I have to say I enjoyed every single word of it. It is fair to assume that I'll buy the other CoG available eventually.

+ Great characters - I genuinely cared about the well-being of most of them at some point.

+ Captivating story - Plots are going to be twisted if you know what I mean.

+ Good interactivity - There a lot of choices to be made, I mean, it's not everyday that a game let me play as a cowardly fool to busy flirting with every single living being to care about anything occult or as a charismatic transgender with the power level of an anime protagonist without forcing me to break character because of the choice limitations. Suffice to say that there's good replayability aswell.

+ Loren - My beacon of light in this sea of darkness. <3

. 21 hours in, really enjoying the game, while it is "just Texas Hold em", the "RPG" elements keep it lively and want to keep me playing to be able to buy "one more house" or "get one more mine", or beat one more "boss". I am probably 2/3 to 3/4 of the way through. The PC players are varied enough to keep it interesting as well (bluff a lot), occasionally make bad bets but it seems random enough to make it like playing a bunch of friends. Fun casual game that is keeping my interest.

Edit - 38 hours to finish the game and become "Governor of Texas". Could play a bit more if I wanted to complete all the in-game achievements. I continue to enjoy this game!. The only thing that could be considered bad about this game is the fact that they misprinted so many clone troopers and gave some the wrong attachments. Like what the heck, a bunch of them use the Attack of the Clones or Revenge of the Sith torso printing instead of the Clone Wars printing. How could they get this wrong? And Commander Cody has a pauldron instead of a visor for some reason???? HOW COULD THEY GET THIS STUFF WRONG IN AN OTHERWISE GREAT GAME!? Has this ever been addressed??. I wish I didn't buy this.. It's like having Total Annihilation back!. 60% off until 10 october. Sunday's prime-time and there's no players on game servers at all!! I spent almost 10 dollars on this game and you offers me to play with a bunch of bots?! Return my money!

Guys, don't buy this game!. Stop looking for bad reviews, It's a good game u♥♥♥♥♥. U have potato pc? Need to chill'n netflix? Dis nibba\u2665\u2665\u2665\u2665\u2665game is 4 u digga wigga! Buy it! ^^
